

FX EAM PROVIDES PROCESS AND INTELLIGENCE TO PHYSICAL ASSET MANAGEMENT

The FX EAM module enhances physical asset management by providing process and intelligence that allows for increased equipment reliability, systematic preventative and predictive maintenance, and efficient regulatory compliance whether users are online or offline from the Internet. Each asset can have multiple preventative maintenance schedules assigned to it which automatically generate work orders from highly configurable templates. FX EAM work orders track the labor, tasks and supplies used to perform the respective maintenance as well as other information such as documents, certifications and photos.

FEATURES

- Track equipment location and usage
- Automatically generate work orders
 - Preventative
 - Corrective
 - Inspection
 - Certification
- Model preventative maintenance schedules that generate work orders from criteria that are:
 - Calendar Based
 - Meter Based
 - Event Triggered
- Operates seamlessly within FieldFX Field Ticketing
 - Data entered on field tickets can automatically spawn work orders in FX EAM
- Operates seamlessly with FX Customer Self-Service
 - Customer specific dashboards can be viewed
 - FX EAM specific jobs can be launched
- Operates offline within FieldFX Mobile
- Highly Extensible
- Capable of Mass Scalability

BENEFITS

- Minimize Equipment Downtime
- Improve Equipment Reliability
- Maximize Equipment Utilization
- Increase Safety
- Lower Equipment Maintenance Costs
- Extended Equipment Life
- Ability to Measure Equipment Performance
- Enhanced Allocation Inventory

STRATEGIC REPORTING

FX EAM provides strategic reporting capabilities. Information such as which pieces of equipment are failing and why, are readily available. By being able to identify which piece of equipment is the most or least reliable, users can avoid costly downtime and provide better service to their customers.

COMPLETE MOBILE FIELD OPERATIONS MANAGEMENT SOLUTIONS

LiquidFrameworks' FieldFX product suite is a complete mobile field operations management solution, providing companies in the oil and gas, industrial and environmental services industries with the ability to organize and manage jobs, quotes, field tickets, equipment, contracts, price books, and labor, along with customer-specific electronic forms such as safety incidents, inspections and other operational data reports.
